Lease a Bike's ordering process in 5 easy steps

1

Register in our portal via your employer's registration link. Apply for a Quickstart and wait for (digital) approval.

2

Choose a connected dealer through our [dealer map](#) and pick your dream bike. Get all the help and advice you need from an expert!

3

Once you have chosen your benefit bike, you can also add accessories and service packages. A comprehensive insurance is always included - with SEK 0 in excess and without age deduction.

4

The retailer creates a quote for your benefit bike in the portal. You can then directly approve the quote yourself via the portal, for example on your mobile phone.

5

If your dream bike is in stock, you can start riding right away! You can of course use your bike for both commuting and leisure - you choose. Get on the saddle and enjoy your benefit bike!

 Psst..don't forget that you can often do all steps at the same time!
